

Digital G190 Battery

Gold Mount Lithium Ion DIGITAL Battery, 14.4 volts, 194 Wh

SKU: 8675-0094

The Digital Battery Series is designed to power contemporary digital productions and offers world-class levels of safety, performance and reliability in a sleek, ergonomic design.

Truly Digital: Designed to limit the high frequency "ringing" produced by digital equipment on start up.

Easy to Read LCD Display: Conveniently reports run-time in hours and minutes when attached to a device. The display automatically changes to show battery charge as a percentage of full when not attached to a device or when no load is placed on the battery.

Ergonomic Design: Easy to hold, rubber over mold helps grip and cushions shock.

Electrically and Mechanically Safe: Multiple sensors detect temperature and over-current states making these the safest batteries on the market. Updated "honeycomb" design provides mechanical separation between each cell in the pack to allow for airflow and to isolate cells from potential cascading damage.

To find out about battery run-time based on your camera model please e-mail servicesupport@vitecgroup.com

Technical specifications

Feature	Metric	Imperial
Range	Digital	Digital
Mount type	Gold Mount	Gold Mount
Chemistry	Lithium-ion	Lithium-ion
Voltage	14.4 V	14.4 V
Capacity	190 Wh	190 Wh
Max current	10 Amps	10 Amps
Power tap	Yes	Yes
USB	No	No
XLR connector	No	No
XLR inputs	No	No
Warranty	2 Year	2 Year
Height	165 mm	6.44 in
Width	112 mm	4.37 in
Depth	84 mm	3.28 in
Weight	1.36 kg	2.99 lb
